

Case Study: MFC in Tissue

Fibre reduction by lightweighting

Trial Objectives:

- Add 4% MFC produced using FiberLean G250 grinder
 - Lower basis weight to reduce fibre consumption
 - Maintain properties

Study Results

*Energy cost includes MFC processing and fibre refining.

Study Outcomes:

- ✓ 4% MFC added
- ✓ 2 g/m² basis weight reduction
- ✓ 10% reduction in pulp usage
- ✓ Specification maintained
- ✓ Estimated 30-40 EUR/t cost saving
